

## SWA Common Information Format

Fill-in Date [Month/Day/ Year]	
Country	
<b>Charactastic of SWA</b>	
Material	
Mesh Size(mm)	
Drying Method, Time and Temperature	
Water swelling capacity: Water, Saline Water, Acid Water [g/g]	
Biodegradability ( % remaining after a certain period) including test method	
<b>Application of SWA for Plant</b>	
Plant Name	
Test Nature (Pot, field or germination)	
In the case of field test, density of plants	
1. Location (City, Province, Country):	
2. Soil Texture (Type):	
3. Climate:	
4. SWA Content (Mixing Ratio):	
5. Other Additives (Fertilizer, PGP, others):	
6. Soil pH and Electrical Conductivity (EC):	
7. Irrigation Quality (EC & pH):	
8. Application Method (Surface Spreading or Through Mixing):	
9. Irrigation Type (Dripping or Showering):	
10. Irrigation Frequency & Total Amount:	
11. Seeding and/or Transplanting Date [Month/Day/ Year]:	
12. Harvesting Date [Month/Day/ Year]:	
13. Effects of SWA on Plant Growth (Crop yield, length, weight):
