Age:38-55 average: 48.6

Histology: Sq.c.Ca: 1 case

Sq.c.Ca, Kerat. 3 cases

Sq.c.Ca.NK: 1cases

FIGO stage: II B stage:2 cases

III B stage: 3 cases

Tumor size: <4 cm:0

$$=4-6Cm:3$$

$>6C_m: 2$

Vaginal invasion: 4 cases

Treatment:

EBRT

WP:28-34GY

(15mv-xray) CS: 18-20CY

ICRT: Point A dose :24-30GY

( Micro-selectron machine  
source:  $^{192}\text{Ir}$ )

Chemotherapy:

DDP30-45 mgse/ bady iv gtt  
qiwses  $\times 5$

# Result

# Hematological Toxicity:

WBC: 1 Case I grade

Neutrophil: 1 Case I grade

Hgb: 1 Case I grade

Plateats: 1 Case II grade

# Nonhematological Toxicity:

Nausea/Vomiting: 3 Cases I  
grade

Rectum/Small intestine: 2 Cases  
I grade

Follow up: 11-46 months

CR: 4 cases

1 case had lungs and costal bone  
metastasis, Die in 2 days. Die in  
the 7-11-2003
